### **DETAILED ACTION**

1. Applicants' remarks and amendments, filed on August 4, 2003, have been carefully considered. Claims 1, 26, & 30 have been amended. Claim 14 has been canceled. New claims 34-36 have been added.

Claims 1-13 & 15-36 are now pending in this application.

2. Applicants affirmed the election of Group I, claims 1-31, in Paper No. 6 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

3. This application contains claims 32-33 which drawn to an invention nonelected without traverse in Paper No. 6. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Claim Objections***

4. Claims 3 & 24 are objected to because of the following informalities:

A. In claim 3, line 2, "boiling" should be --boiling point--.

B. In claim 24, line 1-2, the claim should be rewritten as follows:

Art Unit: 1754

--The process of claim 1 wherein the Group VI metals are Mo and W, and the Group VIII metals are Co and Ni--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112 (Second Paragraph)***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 4 & 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. Regarding claim 4, the proper Markush terminology is --wherein the organic liquid is selected from the group consisting of white oil, gasoline, diesel, gas oil, and mineral lube oil--.  
See MPEP § 2173.05(h).

B. Claim 22 recites the limitation "the Group VIB metal" in line 1. There is insufficient antecedent basis for this limitation in the claim. The independent claim 1 recites "Group VI metal" but not "Group VIB metal", thus, there is no basis for recitation of "Group VIB metal".

***Claim Rejections - 35 USC § 102(b)/103***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1754

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 31 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Seamans et al., "hereinafter Seamans", (PCT WO 94/25157).

Seamans discloses an activated catalyst, wherein the catalyst to be activated is a supported metal catalyst containing elemental sulfur, particularly a Group VIB and/or Group VIII metal catalyst (see page 16, ln 15-17).

Seamans teaches the claimed catalyst, thus anticipates the claim.

Recitation of product-by-process limitation in the claim is noted. While the catalyst of the reference is not made by the same process, the catalyst made is the same as claimed because it contains the same metal components. See *In re Thorpe*, 227 USPQ 964 (Fed. Cir. 1985); *In re Brown*, 173 USPQ 688, 688 (CCPA 1977); *In re Fessman*, 180 USPQ 324, 326 (CCPA 1977).

See also MPEP 2113.

Art Unit: 1754

9. Claim 31 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over de Jong et al., "hereinafter de Jong", (US Pat. 5,139,990).

De Jong discloses an activated catalyst which contains a carrier with deposited thereon one or more metals or compounds of metals, such as oxides, the metals is selected from a group including Group VIB and Group VIII of the Periodic Table (see col. 3, ln 41-46).

De Jong teaches the claimed catalyst, thus anticipates the claim.

Recitation of product-by-process limitation in the claim is noted. While the catalyst of the reference is not made by the same process, the catalyst made is the same as claimed because it contains the same metal components. See *In re Thorpe*, 227 USPQ 964 (Fed. Cir. 1985); *In re Brown*, 173 USPQ 688, 688 (CCPA 1977); *In re Fessman*, 180 USPQ 324, 326 (CCPA 1977).

See also MPEP 2113.

***Allowable Subject Matter***

10. Claims 1-13, 15-30, & 34-36 are not being rejected under the art rejection because they contain allowable subject matter. A statement of reason(s) for allowance of the claimed subject matter is the same as indicated in previous office action.

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1754

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

### ***Conclusion***

12. Claims 1-13 & 15-36 are pending. Claims 4, 22, & 31 are rejected. Claims 3 & 24 are objected. Claims 31-32 remain withdrawn due to nonelected (distinct) invention. Claims 1-2, 5-13, 15-21, 23, 25-30, & 34-36 are allowed.
